SDE I (FTC)

Job ID: 2917267 | ADCI - Karnataka - A66

DESCRIPTION

This job role is a seasonal role (FTC- Fixed term contract) for 12 months contract on the payroll of Amazon.

As a Software Development Engineer, you will get the opportunity to own problems end-to-end and work with some of the best minds in Amazon. This role is for a full-stack developer with an emphasis on designing highly scalable and extensible applications. You will design flexible and scalable solutions, and work on some of the most complex challenges in computing by utilizing your skills in data structures, algorithms, and principle programming. You will have a broad range of responsibilities from design, development, testing, deployment and operations. You would have easy access to Sr SDE, and Principal Engineers to bounce off your ideas and discuss tech solutions.

BASIC QUALIFICATIONS

- 2+ years of non-internship professional software development experience
- 1+ years of non-internship design or architecture (design patterns, reliability and scaling) of new and existing systems experience
- Experience programming with at least one software programming language

PREFERRED QUALIFICATIONS

- 1+ years of full software development life cycle, including coding standards, code reviews, source control management, build processes, testing, and operations experience
- Bachelor's degree in computer science or equivalent

Our inclusive culture empowers Amazonians to deliver the best results for our customers. If you have a disability and need a workplace accommodation or adjustment during the application and hiring process, including support for the interview or onboarding process, please visit https://amazon.jobs/content/en/how-we-hire/accommodations for more information. If the country/region you're applying in isn't listed, please contact your Recruiting Partner.
